Mounting

The following figures show two of several possible methods of mounting the Active+ Sense in a luminaire. In both cases, the sensor is mounted to 22 swg (0.7 mm) sheet metal:

• Option 1 uses the mounting features on the rear of the sensor.

• Option 2 uses the mounting features on the long sides of the sensor.

The mounting features can be used to provide customised mounting solutions.

The examples shown are for guidance only. Mounting brackets are not supplied. All dimensions are in millimetres.
