# LC-SRA-LOOP
Strain Relief Installation Guide

Helvar

freedom in lighting

**1.** Lock the bottom part to the driver so that it clicks into place.
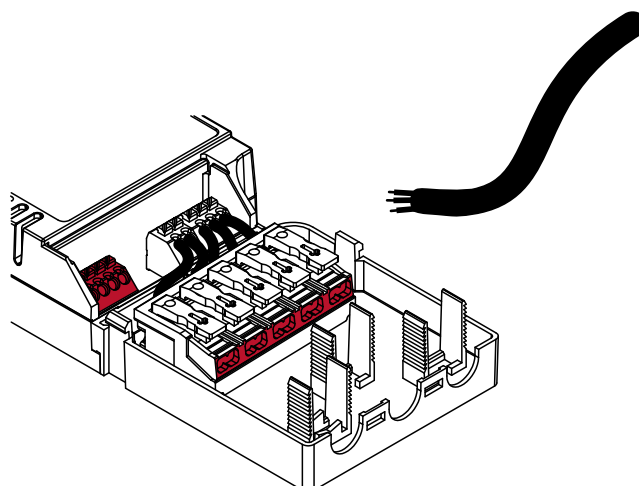

2. Connect the LOOP connector.

I. Connect short wires into LOOP connector (depending on the amount of input terminals in LED driver).

II. Connect short wires from LOOP connector into correct terminals.

III. Lock the connector firmly into place.

3. Connect wires into correct terminals according to driver datasheet instructions, both into LOOP connector and into LED load connector.

NOTE: with Active+ drivers, please use product code LC-SRA-LOOP-2WIRE, which has 3-pole LOOP connector.

4. Lock wires with the cable clamps.

Ensure that cables are tightly locked.
It's recommended to use tool
to push the clamp

Ø 4,8 - 12,5 mm
Ø 4,8 - 12,5 mm
Ø 3 - 10 mm
Check connections once more
after locking the clamps!

5. Lock the cover on the bottom part.
Pay attention that
the cover clicks
into place properly!
