Strain Relief Installation Guide
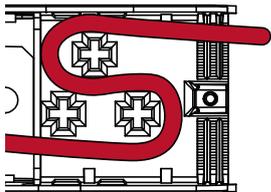

1. Lock the driver in the bottom part.

Ensure that the part marked with red colour
is on top of the metal bottom part of the driver.

**2.** Connect wires
according to driver datasheet.

3. Examples for cable mounting
into strain relief:

H03VV-F 2x0,75 mm²

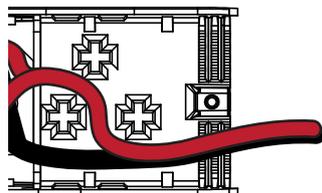

H05VV-F 3x1,0 mm²
MMJ 3x1,5 mm²

Up to 9mm

Ensure that the cable is firmly and
securely mounted into the strain relief!
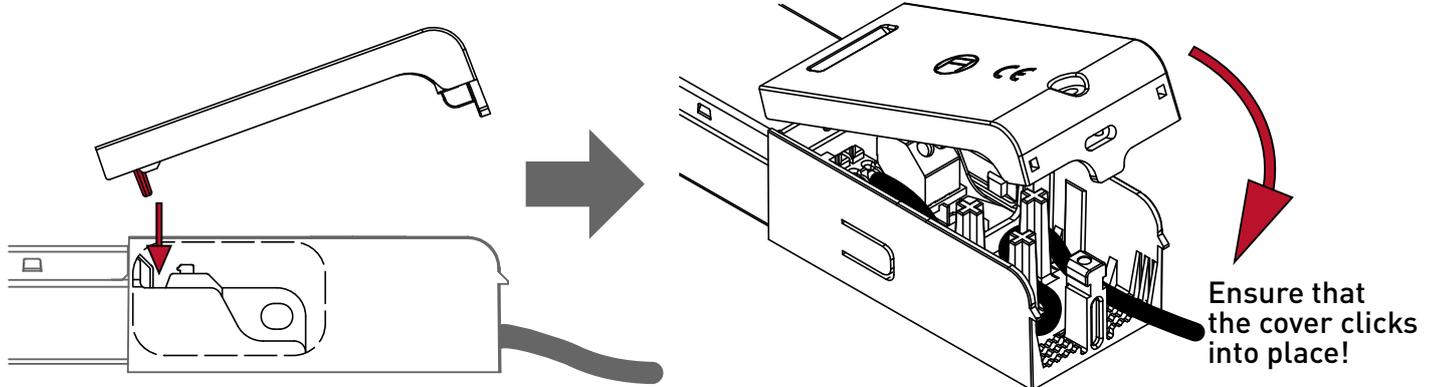

MMJ 5x1.5 mm²

Up to 10-11mm

Make sure to fasten the screw in step 5,
if connected as the black cable.

4. Lock the cover on the bottom part.

Ensure that the cover clicks into place!

5. Optional when needed.
(Screws supplied in the strain relief package)
